

How we look with our Protective Gear

Review our updated COVID-19 protocols

We follow all CDC and American Dental Association guidelines so that you and your smiles stay healthy.

Face mask to be worn at all times before and after dental visit

Students will be seen one at a time during individual appointment times during school day

We will take students temperature

Call us with any questions

Hand sanitizer will be offered to students before and after appointment

Appointment times scheduled to allow enough time for enhanced disinfection between patients

Only students with signed consent will be seen during appointment times

As always we follow standard precautions such as using hospital grade disinfectants, barriers between patients and on equipment, waterline filtration, and medical grade sterilization

We will postpone treatment if student has temperature or has any signs of illness

Social distancing is in effect. Students will be seen individually and maintain 6 feet distance
