Members of the Community and the Board of Education Freeport School District No. 145

Dear Members of the Community and the Board:

The Comprehensive Annual Financial Report (CAFR) for Freeport School District No. 145 (the District) for the fiscal year ending June 30, 2021, is hereby submitted. Submittal of this report complies with the requirements of the Illinois School Code. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data, as presented, is accurate in all material aspects and represents the financial position and results of operations of the District as shown by the disclosure of all financial activity of its various funds, and that all disclosures necessary for public understanding of the District's financial status have been incorporated within this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter for transmittal and should be read in conjunction with it.

This CAFR is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, the district's organizational chart, and a list of principal officers and elected officials. The financial section includes the independent auditor's report on financial statements and pertinent schedules. The statistical section includes historical, multi-year financial, and demographic information pertinent to the district's financial condition.

The District is required to undergo an annual single audit in conformity with the provisions of the U.S. Office of Management and Budget's (OMB) Title 2 CFR Part 200, "Audits of States, Local Governments, and Non-Profit Organizations." Information related to this single audit, including a schedule of federal financial assistance and the independent auditor's reports on the internal control structure and on compliance with applicable laws and regulations, is included under separate cover.

The financial reporting entity of the District is to include the District, as the primary government, organizations for which the District is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading. Based on these criteria, there are no other organizations whose financial statements should be combined with the general purpose financial statements of the District. Additionally, based on consideration of oversight responsibility, scope of public service, and special financing relationships, the District is an independent entity, and not included as a component unit of any other reporting entity.

History of the District

In 1850, the citizens of Freeport voted in a referendum election to tax to build Union School. The vote passed 125 to 9. In 1852, the first public school, Union School, was built on South Galena Street in Freeport and opened for classes in October. The first public high school was on the second floor and the middle school was on the first floor (grammar school classes were conducted in the basements of the Presbyterian, Evangelical, and Methodist churches). In 1856, the first formal system of graded instruction was put into place in the county by the creation of a school system supported by general taxation and the election of a three-commissioner board of school commissioners. The commissioners were seated in 1857, so 1857 is considered the formal creation of Freeport School District.

Several schools were built in subsequent years. The high school principal was considered the supervisor of the school system. In 1867, the board of commissioners determined that such a supervisory system was not adequate to meet the demands of a rapidly growing school system and they elected Mr. G. G. Alvord as the first superintendent.

In 1919, a special election was held approving the purchase of the 25.19-acre tract of land that was the site of Stephenson County's first county fair in 1856. The site had also served in 1861 as Camp Scott, a training site for local men mobilized for service in the Civil War. On this site the present Freeport High School was built in 1925-26 and opened for classes in September 1926. This building has had several additions, including in 1924, 1947-48, 1962-64, and 1996.

Since 1919, several buildings have opened and closed. The current school buildings and administrative offices that are in use today comprise 787,283 square feet of building space, situated on 190.34 acres. Along with Freeport High School, the current list of schools includes the following. Empire Elementary was built in 1951, with additions in 1956 and 1963. Freeport Middle School (formerly Freeport Junior High School) was built in 1952, with additions in 1957 and 1963. Freeport Middle School is also the location of the 997-seat Jeanette Lloyd Theater. Blackhawk Elementary was built in 1954, with an addition in 1965. Lincoln Douglas Elementary was built in 1958, with an addition in 1965. The first Center Elementary was built in 1905. The current Center Elementary was built in 1968 and underwent renovations in 1994 to convert it from an openconcept elementary school. Carl Sandburg Middle School was built in 1969. It also underwent renovation to convert it from an open-concept school in 1995. Jones Farrar IB World School was built by Highland Community College as a vocational education building in 1975. Freeport School District bought the building in 1991. It served as a temporary site for Center and Carl Sandburg during their respective renovations, then became the District's Early Learning Center. It became an IB magnet school in 2010. Taylor Park Elementary was built in 1952, with additions in 1957 and 1965, but was closed in 2020.

The old maintenance shop, built in 1947 and the attached bus garage, built in 1966, were converted into the Freeport Alternative High School and vocational classrooms in 2003. The Banks-Bergagna Education Center was the education building for First Presbyterian Church. Built in 1956, the building was purchased by the District in 2007. The central administration building was built as the Farm Credit Services building in 1972 and purchased by the District in 1988. Finally, in 2003 the District purchased the old Zimmerman car dealership facility and converted it into the maintenance shop and offices, transportation offices and bus maintenance garage, and the District's warehouse.

District Composition and Communities Served

The District serves grades preschool through grade 12. The District maintains ten school buildings: an elementary International Baccalaureate magnet school ($K-6^{th}$ grade) and four additional elementary schools (Preschool -4^{th} grade), one upper elementary school ($5^{th}-6^{th}$ grade), one middle school ($7^{th}-8^{th}$ grade), one high school ($9^{th}-12^{th}$ grade), one alternative high school, and a transitional education facility. Each institution has full State of Illinois recognition and accreditation.

Enrollment includes 3,608 students from the City of Freeport, the Villages of Cedarville and Ridott, and the unincorporated areas of central Stephenson County in between these communities. The district covers 99 square miles located entirely in Stephenson County, IL and is located approximately 114 miles northwest of Chicago, IL, 65 miles southwest of Madison, WI, and approximately 30 miles west of Rockford, Illinois. The District serves 55% of the preschool through grade 12 students in Stephenson County.

Governance

The Board of Education consists of seven elected officials from our community. Freeport School District 145's current Board is comprised of:

Mr. Jack Sosnowski	First elected 2015	Term expires 2023	President
Ms. Martha Furst	First elected 2019	Term expires 2023	Vice President
Mr. Peter Norman	First elected 2015	Term expires 2023	
Rev. Adron Simmons	First elected 2019	Term expires 2023	
Mr. Alan Greene	First elected 2021	Term expires 2025	
Mr. Ryan Shirley	First elected 2021	Term expires 2025	
Mrs. Charlene Williams	First elected 2021	Term expires 2025	

Economic Condition and Outlook

The District's predominately residential tax base is expected to remain pressured in the near term but continue to see signs of moderate valuation increases. The District's \$946 million tax base has ceased its depreciation, after a decline by a cumulative 15.7% from its peak in 2008. Based on discussions with the county assessor, District officials project that valuations will continue to show stabilization and slight increases of the tax base in 2020 and moving forward.

We expect the District's financial operations will continue to improve based on recent expenditure reductions. The district posted General Fund (Education + Operations & Maintenance + Transportation Funds) moderate operating surplus in 2021, for the sixth year in a row and for the seventh time in several years. The District has more aggressively controlled personnel expenditures over the past several years, primarily by reducing staff through attrition. Year-end figures indicate these cuts have resulted in finishing the last five fiscal years in the black.

The District's debt burden will likely remain manageable. The District carries a moderate direct debt burden of 2.67% of full value. All of the District's outstanding debt is secured by its debt service extension base (DSEB), a dedicated levy that is unlimited as to rate but limited in amount by the District's annual DSEB (\$2.7 million). All of the District's outstanding debt is fixed rate. Principal amortization is below average with 64.9% of GO debt retired within ten years.

Currently, the District has a modest pension burden given the state is primarily responsible for funding teacher pensions. District teachers participate in the Teachers Retirement System (TRS) of Illinois, a multi-employer defined benefit pension plan, and non-teaching District employees participate in the Illinois Municipal Retirement Fund (IMRF), an agent multi-employer plan. As of June 30, 2021, TRS had a low reported funded ratio of 40.6%, while as of December 31, 2020, IMRF had a stronger funded ratio of 94.1%. The state is primarily responsible for funding TRS through payments made on behalf of school districts.

Revenues are comprised of local property taxes, state aid, and federal funding with the mix of the three revenue streams varying by each district. The state constitution creates a foundational level for education funding, and through its adoption of the Evidence Based Funding (EBF) model the state has slightly increased its annual allocation for state aid funding. In recent years the district has experienced slight increases and budgeted them in fiscal 2020 and 2021. Local property taxes have historically been largely predictable for Illinois school districts. Property taxes comprised 45.0% of fiscal 2021 Operating Fund revenues, and the district benefits from in excess of a 100% collection rate.

Management has made budget cuts in order to restore balanced operations.

The District received both the ASBO Certificate of Excellence in Financial Reporting and the GFOA Certificate of Achievement for Excellence in Financial Reporting for its 2018, 2019 and 2020 CAFR.

Financial Policies / Budget Schedule

Financial policies regarding the acquisition, acknowledgement, investment, and expenditure of all District funds have been established by the Board of Education. A board finance committee meets on a regular basis to devote additional time and scrutiny of all financial operations on a policy and oversight level. The Board of Education follows a budget planning schedule that extends from October through the following September of each fiscal year and complies with all Illinois statutory requirements including, but not limited to, budgeting, levying, truth-in-taxation, and proper and complete auditing of district accounts.

Basis of Accounting and Reporting / Independent Audit

The District reports the government-wide financial statements on the accrual basis of accounting, and the fund financial statements are prepared on the modified accrual basis. Notes to financial statements expand upon the basis of accounting used by the District as well as other accounting practices and procedures. All district funds are included in this report and have been audited by Sikich of Naperville, IL, who has issued an unmodified (clean) opinion on the Freeport School District 145's financial statements for the year ended June 30, 2021. The independent auditor's report is located at the front of the financial section of this report. The financial statements have been prepared in accordance with the standards set forth by the Governmental Accounting Standards Board (GASB).

Financial Management and Internal Controls

Management of the District is responsible for establishing and maintaining a system of internal control designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

Tests are conducted by the District's independent auditors to determine the adequacy of internal control, including that portion related to federal financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

Budgetary Controls

Budgetary control is maintained at line-item levels by the buildings for their expenditures and built up into program and/or cost centers before being combined to form totals by fund. All actual activity compared to budget is reported to the District's management on a monthly basis. Reports of actual activity to budget are reported to the Board of Education monthly. The complete budget of the District is found on its website: www.fsd145.org.

Cash Management

The District invests up to 100 percent of available cash, timing investment maturities to actual cash needs. In addition, all checking accounts are of interest-bearing types. Investments are maintained in certificates of deposit, bank repurchase agreements, U.S. Treasury obligations, General Obligation Bonds, and commercial paper. Investments in prime commercial paper are made in small amounts in short-term money market accounts that are maintained as AAA ratings and monitored by PMA Financial Network on a weekly basis. There is minimal risk for our District in this area and within the restrictions allowed by the Illinois School Code. The District maintains investment relationships with several major local and Chicago area banks, two state-wide investment pools, and one nation-wide money manager.

Closing Statement

It is our belief that this Comprehensive Annual Financial Report will provide the District's management, outside investors, and local citizens with a meaningful financial presentation. We hope that all readers of this Report will obtain a clear and concise understanding of the District's financial condition as of June 30, 2021. We extend our appreciation to the members of the Board of Education for their interest and support in planning and conducting the financial operations of the District in a professional and fiscally responsible manner.

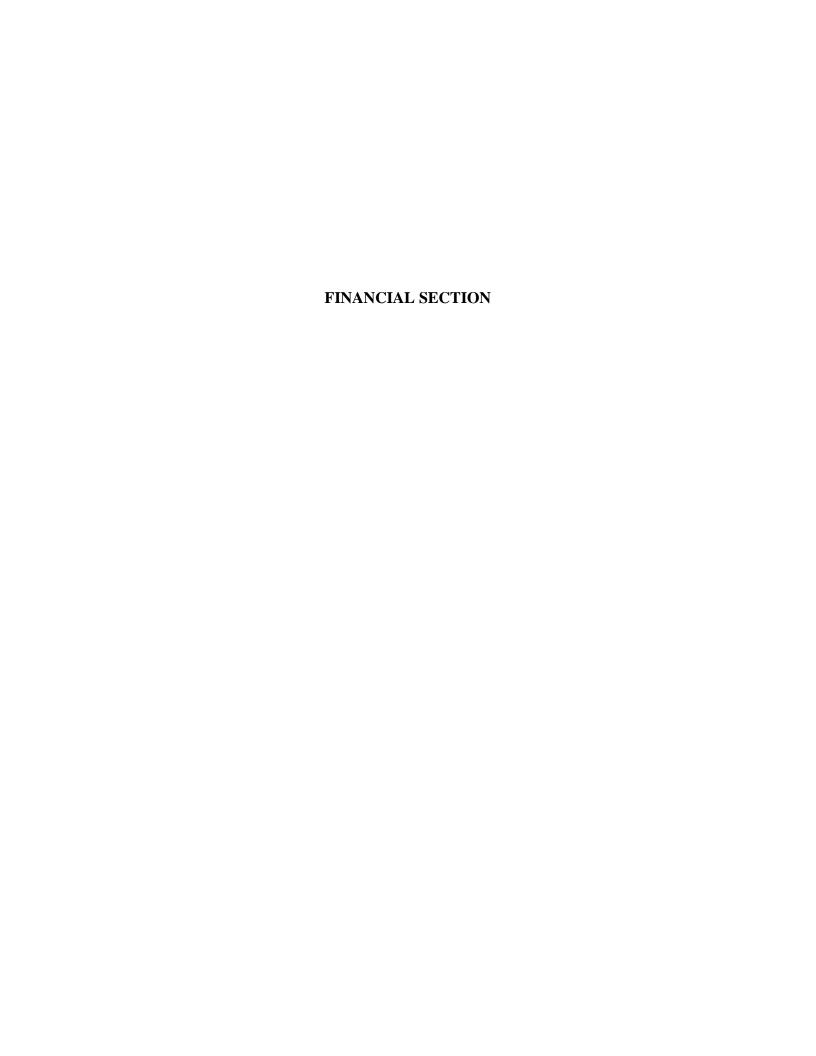

Respectfully submitted,

Dr. Anna Alvarado

Superintendent of Schools

SIKICH.COM

INDEPENDENT AUDITOR'S REPORT

To the Board of Education Freeport School District #145 Freeport, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Freeport School District #145 (the District) as of and for the year ended June 30, 2021, and the related notes to the financial statements which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Freeport School District #145 as of June 30, 2021, and the respective changes in financial position, thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

The District adopted GASB Statement No. 84, Fiduciary Activities for the year ended June 30, 2021. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information identified in the accompanying table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management implemented GASB S-75 in the fiscal year ended June 30, 2020. Therefore, only two years of data is presented as 2018 and 2019 data is not available. Such missing information, although not a part of the basic financial statements, is required by GASB. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we also issued a report dated February 16, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Sikich LLP

Naperville, Illinois February 16, 2022

GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

Management Discussion and Analysis

As management of Freeport School District No. 145 (the "District"), we offer the readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended June 30, 2021.

The MD&A is provided at the beginning of the report to provide an overview of the District's financial position at June 30, 2021 and the results of operations for the year. This summary should not be taken as a replacement for the audit report, which consists of the basic financial statements, notes to the financial statements, required and other supplementary information.

FINANCIAL HIGHLIGHTS

The District's financial situation continues to struggle like most school Districts in Illinois. State aid, through Illinois' Evidence Based Funding (EBF) model has created increases in state funding to the District. Some continuing delays in non-EBF state funding have had some impact on the District. Investment earnings continue to be low due to the continued low investment rates.

The liabilities of the District exceeded its assets at the end of the year by \$17.8 million (net position). Of this amount, (\$32.7) million (unrestricted net position) may be used to meet the District's ongoing obligations.

The District's net position decreased by \$2.2 million for the year.

The General Fund - Educational and Working Cash Funds balance increased by \$11.6 million from the prior year to a total of \$17.6 million.

At the end of the year, the aggregate fund balances for the District's governmental funds (Educational, Operations and Maintenance, Working Cash, Transportation, Retirement/Social Security, Tort, Debt Service, Capital Project, and Fire Prevention and Safety), was \$36 million or 47% of the total expenditures of these governmental funds.

USING THIS FINANCIAL REPORT

The financial section of this annual report consists of four parts - Independent Auditor's Reports, required supplementary information which includes the MD&A (this section), the basic financial statements, and other supplementary information. The basic financial statements include two kinds of statements that present different views of the District.

Government - Wide Financial Statements

The first two statements are government-wide financial statements that provide both short term and long term information about the District's overall financial status, similar to a private sector business. In the government-wide financial statements the District's activities are shown in one category - governmental activities. The District's basic services are instruction, administration and building maintenance. These activities are largely financed with property taxes and state grants.

Management Discussion and Analysis

USING THIS FINANCIAL REPORT (continued)

Government -Wide Financial Statements (continued)

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. To assess the overall health of the District you need to consider additional non-financial factors such as the condition of the District's buildings and facilities.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event occurs, regardless of the timing of cash flows. Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in the next fiscal period.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by state law, while others are established to control and manage money for particular purposes or to show that the District is properly using certain revenues.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for each. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The District maintains nine individual governmental funds. Two of those funds, the Educational, and Working Cash are considered the General Fund of the District and are combined accordingly. Individual fund information is presented in separate columns in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and the changes in fund balances for all the other funds. These funds are all considered major funds of the District. More detail of the individual revenues and expenditures for these funds are presented in the other supplementary information section of this report.

The District adopts annual budgets for all the governmental funds. A budgetary comparison statement has been provided for the general and special revenue funds only, which is in compliance with GASB Statement No. 34.

Management Discussion and Analysis

USING THIS FINANCIAL REPORT (continued)

Fund Financial Statements (continued)

Proprietary Fund - The District maintains one proprietary fund. Proprietary funds are reported in the same way as the government-wide financial statements. Internal Service Funds are a type of proprietary fund and provide service to other funds in the District. The District's internal service fund accounts for the medical and dental benefits for District employees.

Fiduciary Funds - The District is the trustee, or fiduciary, for assets that belong to others or are designated to be used for a specific purpose with the principal left intact. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purpose and by those to whom the assets belong. The District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. These activities are excluded from the government-wide financial statements because the District cannot use these assets to finance its operations.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The District's net position was (\$19.7) million at June 30, 2021. Of this amount, (\$39.2) million was unassigned. Restricted net position is reported separately to show the limits from legislation, or accounting principles that limit the District's ability to use that net position for day to day operations. The following analysis focuses on the net position and changes in net position of the District's governmental activities.

Net Position Governmental Activities June 30 (In Millions)

	2021	2020
Current assets	\$56.9	\$43.5
Capital assets	13.7	11.9
Deferred outflows of resources	10.6	13.0
Total assets and deferred outflows	81.2	68.4
Current liabilities	7.7	7.7
Long term liabilities	69.4	57.8
Deferred inflows of resources	23.8	20.8
Total liabilities and deferred inflows	100.9	86.3
Net position		
Net investment in capital assets	2.2	(0.3)
Restricted	17.4	15.2 [´]
Unrestricted	(39.2)	(32.7)
Total net position	(\$19.7)	(\$17.8)

Management Discussion and Analysis

The cost of governmental activities for this year was \$85.6 million. Local property taxes financed about 29% of this or \$24.3 million.

Operating grants and contributions such as other state and federal funding was the next largest contributor with \$24.3 million of the total cost. General state aid was the next largest contributor with \$23 million. Additionally, a small amount comes from payments in lieu of taxes (\$2.3 million) and charges for services (\$.7 million).

Management Discussion and Analysis

DISTRICT FUND'S FINANCIAL ANALYSIS

The District's budget is prepared according to Illinois law and was not amended during the year.

A budget was prepared for all funds except the Internal Service Fund and the Trust and Agency Funds.

General Fund

The General Fund is the District's main operating fund and includes the Educational and Working Cash Funds. Actual revenue for the General Fund was \$47.2 million compared to budgeted revenue of \$48 million. Actual revenue was lower than budgeted largely due to pandemic shut down preventing expenditure of federal (Title I and National School Lunch Program) dollars, and the subsequent lack of submission for reimbursement.

Actual expenditures in the General Fund were \$47.8 million compared to budgeted expenditures of \$48.1 million. Actual expenditures were slightly lower due to pandemic shut down preventing expenditure of federal (Title I and National School Lunch) dollars.

Actual revenues exceeded actual expenditures and other financing sources (uses) for the year by \$11.4 million bringing the general fund balance to \$17.6 million at June 30, 2021.

Operations and Maintenance Fund

The Operations and Maintenance Fund had actual revenues of \$5.5 million and expenditures of \$4.2 million resulting in an ending fund balance of \$5.5 million.

Transportation Fund

The Transportation Fund had actual revenues of \$3.7 million and expenditures of \$3.4 million resulting in an ending fund balance of \$5.7 million.

Retirement/Social Security

The Retirement/Social Security Fund had actual revenues of \$1.9 million and expenditures of \$1.7 million resulting in an ending fund balance of \$2.9 million.

Tort Fund

The Tort Fund had actual revenues of \$712 thousand and expenditures of \$559 thousand resulting in an ending fund balance of \$1.1 million.

Debt Service Fund

The Debt Service Fund had actual revenues of \$2.8 million and expenditures of \$2.7 million resulting in an ending fund balance of \$1.7 million.

Management Discussion and Analysis

Capital Projects Fund

The Capital Projects Fund had actual revenues of \$128 thousand and expenditures of \$5.4 million resulting in an ending fund balance of \$1 million.

Fire Prevention and Safety Fund

The Fire Prevention and Safety Fund had actual revenues of \$150 thousand and expenditures of \$20 thousand resulting in an ending fund balance of \$516 thousand.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2021, the District had \$61.4 million invested in land, buildings, land improvements and equipment. Of this amount, \$47.8 million in depreciation has accumulated over the years, including \$1.4 million of depreciation being incurred in the current year. The District's net book value of capital assets at June 30, 2021 is \$13.7 million. Total additions for the year were \$7.3 million. All of the additions during the year were financed with previously issued bond proceeds and local donations. More detailed information can be found in Note 3 of the financial statements.

Net Book Value of Capital Assets at June 30 (In Millions)	
---	--

	2021	2020
Land	\$.8	\$.8
Construction in progress	.1	2.3
Buildings	10.5	6.3
Land improvements	.8	.9
Equipment	1.5	1.6
Total	\$13.7	\$11.9

Debt Administration

At June 30, 2021, the District had \$38.9 million in general obligation bonds. During the year the District retired \$8.9 million in general obligation bonds and issued \$18.6 million in general obligation bonds. Principal due next year on these obligations is \$1.4 million.

	2021	2020
General obligation bonds	\$38.9	\$29.1
Total	\$38.9	\$29.1

State statutes limit the amount of debt that a School District may issue. The current unused debt limitation for the District is \$2.3 million under that statutory limit. Additional details on the District's long term debt can be found in Note 4 of the financial statements.

Management Discussion and Analysis

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Uncertainty with the Illinois State budget, which provides nearly one third of the funding for the District, is an ever present concern. The State's implementation of its evidence based funding (EBF) model in fiscal year 2018 has helped shore up state funding. The District saw a \$1.1 million increase in EBF funding for FY19 and a \$1.35 million increase in EBF funding for FY20. However, FY21 EBF funding was flat with FY20.

Interest income earnings remain low due to continued poor investment rates, though slight increases have been realized. Moving into FY21 the District will continue to practice sound fiscal management while trying to meet state and federal mandates, and provide the best quality education to the students of Freeport School District No. 145.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of Freeport School District No. 145's finances for all those with interest in the government's finances. Questions concerning any of the information provided in this report, or requests for additional information should be addressed to:

Patrick McDermott, Ed.D., SFO Assistant Superintendent for Business & Finance Freeport School District No. 145 501 E. South Street Freeport, IL 61032 Phone number (815) 232-0300

RECONCILIATION OF FUND BALANCES OF GOVERNMENTAL FUNDS TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF NET POSITION

June 30, 2021

		_
FUND BALANCES OF GOVERNMENTAL FUNDS	\$	36,003,384
Amounts reported for governmental activities in the statement of net position are different because:		
Net capital assets used in governmental activities and included in the statement of net position do not require the expenditure of financial resources and, therefore, are not reported in the governmental funds balance sheet		13,679,838
6		-,,
Revenues in the statement of activities that do not provide current financial resources are unavailable in the funds		731,552
Net pension assets are not financial resources and are not reported in governmental funds		3,877,518
Differences between expected and actual experiences, assumptions changes, net differences between projected and actual earnings and contributions subsequent to the measurement date for the Illinois Municipal Retirement Fund are recognized as deferred outflows of resources and deferred inflows of resources on the statement of net position		
Deferred outflows of resources		8,372,553
Deferred inflows of resources		(4,261,162)
Differences between expected and actual experiences, assumptions changes, net differences between projected and actual earnings and contributions subsequent to the measurement date for the Teachers' Retirement System of the State of Illinois are recognized as deferred outflows of resources and deferred inflows of resources on the statement of net position Deferred outflows of resources		315,639
Deferred inflows of resources		(2,231,010)
Differences between expected and actual experiences, assumptions changes, net differences between projected and actual earnings and contributions subsequent to the measurement date for the Teachers' Health Insurance Security Fund are recognized as deferred outflows of resources and deferred inflows of resources on the statement of net position Deferred outflows of resources		265,058
Deferred inflows of resources		(5,021,476)
Assumption changes for the OPEB plan are recognized as deferred outflows of resources on the statement of net position		
Deferred outflows of resources		18,219
Interest on long-term liabilities accrued in the statement of net position will not be paid with current financial resources and, therefore, is not recognized in the governmental funds		
balance sheet		(423,385)
Gains and losses on debt refundings are capitalizated and amortized at the government-wide level		1,625,558
Long-term liabilities applicable to the District's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities. All liabilities, both current and long-term, are reported in the statement of net position		
General obligation bonds		(38,935,688)
Unamortized bond premium		(2,385,239)
Net OPEB liability Total OPEB liability - THIS		(552,124) (25,054,571)
Net pension liability - TRS		(25,054,571) (2,431,656)
The net position of the internal service fund is included in the governmental activities in the statement of net position		(3,246,140)
NET POSITION OF GOVERNMENTAL ACTIVITIES	_\$	(19,653,132)

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES

For the Year Ended June 30, 2021

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	\$ 8,306,610
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceed depreciation expense in the current period	
Capital asset additions Depreciation expense	3,192,762 (1,390,095)
The loss on disposal of capital assets does not require the use of current financial resources and, therefore, is not reported as an expenditure in the governmental funds	(27,300)
Certain revenues included in the statement of activities does not provide current financial resources and, therefore, is deferred in the governmental fund statements	636,055
The change in the Illinois Municipal Retirement Fund net pension liability and deferred outflows/inflows of resources are not a source or use of financial resources	(1,668,610)
The change in the Teachers' Retirement System of the State of Illinois net pension liability and deferred outflows/inflows of resources are not a source or use of financial resources	975,601
The change in the Teachers' Health Insurance Security Fund total OPEB liability and deferred outflows/inflows of resources are not a source or use of financial resources	(466,902)
The change in the net OPEB liability and deferred outflows of resources are not a source or use of financial resources	(43,075)
Some revenues and expenses reported in the statement of activities do not provide (use) current financial resources and therefore are not reported in the governmental funds State on-behalf contributions - TRS and THIS State on-behalf expense - TRS and THIS	9,752,588 (9,752,588)
The issuance of long-term bonds payable is reported as an other financing source in governmental funds but as an increase of principal outstanding in the statement of activities	(14,215,000)
The issuance of long-term refundingbonds payable is reported as an other financing source in governmental funds but as an increase of principal outstanding in the statement of activities	(4,380,000)
The payment to escrow agent is reported as an other financing source when due in governmental funds but as a reduction of principal on the government-wide financial statements	6,466,857

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES (Continued)

For the Year Ended June 30, 2021

The current year amortizations of loss on refunding is reported as interest expense on the statement of activities - current year loss on refunding	\$ 853,143
The repayment of long-term debt is reported as an expenditure when due in governmental funds but as a reduction of principal on the government-wide statement of activities	1,562,853
The accretion of interest on capital appreciation bonds is reported as an increase in principal outstanding on the statement of net position	(96,619)
Governmental funds report the effects of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities	
Interest payable Bond premium Gain or loss on refunding	4,250 (1,483,805) 459,560
The change in net position of certain activities of internal service funds is included in governmental funds	 (911,088)

NOTES TO FINANCIAL STATEMENTS

June 30, 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Freeport School District #145 (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

a. Nature of Operations

The District Board of Education (the Board) is the level of government that has governance responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the District. The Board receives funding from local, state and federal government sources and must comply with requirements of these funding source entities. Board members are elected by the public and have decision-making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. Based on these criteria, the District is considered a primary government and there are no other organizations or agencies whose financial statements should be combined or discretely presented with these basic financial statements.

b. Reporting Entity

Accounting principles generally accepted in the United States of America require that the financial reporting entity include (1) the primary government, (2) organizations for which the primary district is financially accountable and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The criteria provided by governmental accounting standards have been considered and there are no agencies or entities which should be presented with the District.

c. Fund Accounting

The accounts of the District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Fund Accounting (Continued)

Funds are classified into the following categories: governmental, proprietary and fiduciary.

Governmental funds are used to account for all or most of the District's general activities, including the collection and disbursement of restricted or committed monies (special revenue funds), the funds committed, restricted or assigned for the acquisition or construction of capital assets (capital projects funds) and the funds committed, restricted or assigned for the servicing of long-term debt (debt service funds). The General Fund is used to account for all activities of the general government not accounted for in some other fund.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the District (internal service funds). The District does not have any enterprise funds.

The District reports the following major governmental funds:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund. The District uses two departmental accounts to summarize its operating fund activities: the Educational Account and the Working Cash Account.

The Special Revenue Funds (Operations and Maintenance Fund, Transportation Fund, Tort Fund and Illinois Municipal Retirement/Social Security Fund) are used to account for the proceeds of specific revenue sources that are restricted, committed or assigned to expenditures for specified purposes other than debt service or capital projects. The Tort Fund and Illinois Municipal Retirement/Social Security Fund did not meet the criteria for inclusion as a major fund; however, the District has elected to report them as such.

The Debt Services Fund is used to account for financial resources that are restricted, committed or assigned to expenditures for the period payment of principal, interest and related fees on general long-term debt. The Debt Services Fund did not meet the criteria for inclusion as a major fund; however, the District has elected to report it as such.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Fund Accounting (Continued)

The Capital Projects Fund and Fire Prevention and Safety Fund are used to account for financial resources that are restricted, committed or assigned to expenditures for the acquisition or construction of capital facilities and other capital assets. The Capital Projects Fund and Fire Prevention and Safety Fund did not meet the criteria for inclusion as a major fund; however, the District has elected to report them as such.

The District reports the following internal service funds:

The Internal Service Fund is used to account for revenues and expenses related to the District's employee health and dental plans.

d. Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of material interfund activity other than interfund sales and services has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on user fees and charges for support. The District has no business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and shared revenues that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Indirect expenses not allocated to functions are reported separately. Interest on general long-term debt is considered such an indirect expense. Depreciation expense is specifically identified by function and is included in the direct expenses of each function.

e. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period (60 days is used for property taxes and most other revenues). The District recognizes property taxes when they become both measurable and available in the year intended to finance. Expenditures are recorded when the related liability is incurred.

Principal and interest on general long-term debt are recorded as expenditures become due.

Those revenues susceptible to accrual are property taxes, charges for services, intergovernmental and interest on investments.

The District reports unearned and unavailable revenue on its financial statements. Unavailable revenues arise when potential revenue does not meet the available criteria for recognition in the current period for governmental funds. Unearned revenues also arise when resources are received by the District before it has legal claim to them as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when revenue recognition criteria are met, or when the District has a legal claim to the resources by meeting all eligibility requirements, the liability for unearned revenue is removed from the financial statements and revenue is recognized. Unavailable revenue results from property taxes being levied and reported as a receivable before the period for which the taxes are levied.

f. Cash and Investments

Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand, cash in depository accounts and short-term, highly liquid investment instruments with original maturities of three months or less from the date of acquisition, which are stated at cost.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

f. Cash and Investments (Continued)

Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The District categorizes its fair value measurements within the fair value hierarchy established by GAAP. The hierarchy is based on valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The District held no investments to measure at fair value at June 30, 2021.

g. Property Taxes

The District's property tax is levied each year on all taxable real property located in the District on or before the last Tuesday in December. The 2020 and 2019 levies were passed by the Board on December 15, 2020 and December 17, 2019, respectively. Property taxes attached as an enforceable lien on property as of January 1 and are payable in two installments on approximately June 1 and September 1. The District receives significant distributions of tax receipts during July, August, September, October and November.

Property tax receivables reflect the estimated collectible portion of the current year levy. The District historically has received at least one-half of its tax monies by the end of August. The District, to be consistent with past years, has therefore recognized 50% of current year tax levies as revenue for the period each year.

h. Capital Assets

Capital assets are defined as assets with an initial cost of \$1,000 or more with an estimated useful life greater than one year. Capital assets are recorded at cost or estimated historical cost and depreciated over their estimated useful lives (excluding salvage value). Donated capital assets are recorded at acquisition value at the date of donation. Land and construction in progress are not depreciated by the District.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Capital Assets (Continued)

The estimated useful life is management's estimate of how long the asset is expected to meet service demands. Straight-line depreciation is used based on the following estimated useful lives:

Assets	Years
Duildings	50
Buildings Land improvements	50 20
Transportation equipment	5
Equipment	10

i. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

j. Compensated Absences/Other

District employees receive various numbers of sick days per years based on the collective bargaining agreements or policies in place. These days may accumulate to a maximum of 360 days. Sick leave does not vest and, therefore, is recognized only when used.

k. Long-Term Liabilities

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts, as well as deferred amounts on refunding, are deferred and amortized over the life of the bond. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are recognized during the current period.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k. Long-Term Liabilities (Continued)

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as issuance costs, during the current period. The face amount of debt is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

1. Net Position/Fund Balances

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or which are legally or contractually required to be maintained intact.

Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose or externally imposed by outside entities or from enabling legislation adopted by the District. Committed fund balance is constrained by formal actions of the Board, which is considered the District's highest level of decision-making authority. Formal actions include resolutions and ordinances approved by the Board. Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose.

Currently, the Board has not delegated the authority to assign fund balances. Any residual fund balance in the General Fund and any deficit fund balance of any other governmental fund is reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending the District considers committed funds to be expended first followed by assigned funds and then unassigned funds.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net investment in capital assets represents the book value of capital assets less any long-term debt issued to acquire or construct the capital assets.

None of the restricted net position or restricted fund balance results from enabling legislation adopted by the District.

NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m. Use of Estimates

The preparation of financial statements in conformity with the GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, deferred inflows and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results may differ from those estimates.

n. Postponement of Implementation of Certain Authoritative Guidance

In accordance with the provisions of GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, the District has delayed the implementation of GASB Statement No. 87, *Leases* to June 30, 2023.

2. DEPOSITS AND INVESTMENTS

The District's investment policy authorizes the District to make deposits/invest in all investments allowed by Illinois Compiled Statutes (ILCS). These include deposits/investments in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, credit union shares, repurchase agreements, commercial paper rated with the three highest classifications by at least two standard rating services and the Illinois School District Liquid Asset Fund Plus.

Certain district funds maintain their cash balances in a common checking account, with accounting records being maintained to show the portion of the common bank account balance attributable to each participating fund.

It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy are, in order of priority, safety of principal, liquidity, rate of return and diversification.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the District's deposits may not be returned to it. The District's investment policy requires all amounts deposited or invested with financial institutions be either covered by federal depository insurance or collateral, preferably held by a third party, in the District's name, in an amount equal to the amount of deposits in excess of depository insurance coverage.

Investments

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the District's investment policy prefers that all security transactions that are exposed to custodial credit risk are processed with the underlying investments held by a third party custodian.

The District's investment policy does not limit investment maturities as a means of managing its exposure to fair value losses from increasing interest rates.

Credit risk for investments is the risk that an issuer of an investment will not fulfill its obligations to the holder of the investment. The District's investment policy seeks to minimize credit risk by requiring investments in securities allowed under the investment policy.

Concentration of credit risk for investments is the risk that the District has a high percentage of their investments invested in one type of investment. The District's investment policy does not further limit its investment choices beyond the Illinois School Code.

Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment. The District's investment policy does not address interest rate risk.

NOTES TO FINANCIAL STATEMENTS (Continued)

3. CAPITAL ASSETS

Changes in capital assets during the year ended June 30, 2021, are as follows:

	Beginning Balances	Increases	Decreases	Ending Balances

4. LONG-TERM DEBT

a. General obligation bonds consisted of the following at June 30, 2021:

<u>-</u>	Date of Issuance	Maturity Date	Interest Rate	Original Issue	Carrying Amount
General obligation bonds Limited Tax Capital Appreciation					
Bonds, Series 2003	4/9/2003	1/1/2023	4.961%	\$ 20,182,851	\$ 2,530,688
General Obligation Limited School			2.00% to	. , ,	, , ,
Bonds, Series 2014	5/5/2014	2/1/2025	4.25%	4,890,000	2,140,000
General Obligation Limited School			3.00% to		
Bonds, Series 2018A	6/1/2018	2/1/2035	5.00%	15,285,000	13,145,000
Taxable General Obligation Limited			3.65% to		
School Bonds, Series 2018B	6/1/2018	2/1/2025	3.76%	2,525,000	2,525,000
General Obligation Limited Tax					
School Bonds, Series 2020A	10/20/2020	10/01/2040	4.00%	14,215,000	14,215,000
Taxable General Obligation Limited			1.75% to		
School Bonds, Series 2020B	10/20/2020	10/01/2035	3.30%	4,380,000	4,380,000

In fiscal year 2021, the District issued \$14,215,000 of General Obligation Limited Tax School Bonds, Series 2020A and \$4,380,000 Taxable General Obligation Limited Tax School Bonds, Series 2020B, to refund all of the outstanding General Obligation Limited School Bonds, Series 2010B and a portion of the General Obligation Limited School Bonds, Series 2014 and 2018A. The Certificates bear interest at 1.75% to 4.00%. Interest is payable semiannually on April 1 and October 1 and the bonds mature serially on October 1 annually beginning on October 1, 2025 through October 1, 2040, in amounts ranging from \$290,000 to \$2,810,000.

The refunding was not done to save money on the prior bonds but to enable within the confines of the Debt Service Extension Base to access the unused end years of the Debt Service Extension Base and resulted in a cash flow difference of (\$19,626,519) an economic loss (difference between the present value of the debt service payments of the refunded and refunding bonds) of \$1,055,397.

b. Changes in Long-Term Debt

The following is a summary of changes in long-term debt for the year ended June 30, 2021:

	Beginning Balances	6 6		Ending Balances	Current Portion

2037-2041	1	2,980,000		1,339,400		14,319,400		-		-
TOTAL	\$ 3	6,405,000	\$	18,129,712	\$	54,534,712	\$	159,111	\$	2,689,799

d. Legal Debt Margin

The June 30, 2021, remaining legal debt limit of the District was \$2,308,468 based upon 13.80% of its 2020 equalized assessed valuation of \$314,377,938, resulting in a legal debt margin of \$43,384,155. Total debt applicable to the limit was \$41,075,688, which includes the outstanding general obligation bonds.

NOTES TO FINANCIAL STATEMENTS (Continued)

5. OPERATING LEASES

The District entered into lease agreements in fiscal year 2017, 2019 and 2020 for the rental of several school buses. Payments are due annually for the leases. Minimum payments due on the leases are as follows:

Year Ending June 30,	Amount
2022	\$ 623,466
2023	351,872
2024	691,820
2025	652,500
TOTAL	\$ 2,319,658

6. RETIREMENT PLAN COMMITMENTS

The retirement plans of the District include the Teachers' Retirement System (TRS or the System) of the State of Illinois (the State) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State on behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed on the following pages.

a. Teachers' Retirement System of the State of Illinois

Plan Description

The District participates in the TRS. TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration. TRS issues a publicly available financial report obtained that http://trsil.org/financial/cafrs/fy2020; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

NOTES TO FINANCIAL STATEMENTS (Continued)

6. RETIREMENT PLAN COMMITMENTS (Continued)

a. <u>Teachers' Retirement System of the State of Illinois</u> (Continued)

Benefits Provided

TRS provides retirement, disability and death benefits. Tier 1 members have TRS or reciprocal system service prior to January 1, 2011. Tier 1 members qualify for retirement benefits at age 62 with five years of service, at age 60 with ten years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last ten years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.20% of final average salary up to a maximum of 75% with 34 years of service.

Tier 2 members qualify for retirement benefits at age 67 with ten years of service, or a discounted annuity can be paid at age 62 with ten years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier 2 are identical to those of Tier 1. Death benefits are payable under a formula that is different from Tier 1.

Essentially all Tier 1 retirees receive an annual 3% increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier 2 annual increases will be the lesser of 3% of the original benefit or 1/2% of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the State.

Contributions

The State maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of fiscal year 2045.

NOTES TO FINANCIAL STATEMENTS (Continued)

6. RETIREMENT PLAN COMMITMENTS (Continued)

a. <u>Teachers' Retirement System of the State of Illinois</u> (Continued)

Contributions (Continued)

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2020, was 9% of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On-Behalf Contributions to TRS

The State makes employer pension contributions on behalf of the District. For the year ended June 30, 2021, state contributions recognized by the employer were based on the State's proportionate share of the collective net pension liability (NPL) associated with the employer, and the employer recognized revenue and expenditures of \$20,284,111 in pension contributions from the State.

2.2 Formula Contributions

Employers contribute 0.58% of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2021, were \$137,516 and are deferred because they were paid after the June 30, 2020, measurement date.

Federal and Special Trust Fund Contributions

When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contributions rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2021, the employer pension contribution was 10.41% of salaries paid from federal and special trust funds. For the year ended June 30, 2021, salaries totaling \$672,304 were paid from federal and special trust funds that required employer contributions of \$69,987. These contributions are deferred because they were paid after the June 30, 2020 measurement date.

NOTES TO FINANCIAL STATEMENTS (Continued)

6. RETIREMENT PLAN COMMITMENTS (Continued)

a. <u>Teachers' Retirement System of the State of Illinois</u> (Continued)

Employer Retirement Cost Contributions

Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members granted salary increases over 6% if those salaries are used to calculate a retiree's final average salary.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2021, the employer paid \$2,011 to TRS for employer contributions due on salary increases in excess of 6% and \$0 for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the employer. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the District were as follow:

District's proportionate share of the net pension liability	\$ 2,431,656
State's proportionate share of the net pension liability	
associated with the District	190,459,966
TOTAL	\$ 192,891,622

The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019 and rolled forward to June 30, 2020. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2020, relative to the projected contributions of all participating TRS employers and the State during that period. At June 30, 2020, the employer's proportion was 0.0028204480%, which was a decrease of 0.0001326664% from its proportion measured as of June 30, 2019, (0.0029531144%).

Changes in proportion and differences between employer contributions and proportionate share					
of contributions		-		2,204,847	
District contributions subsequent to the measurement					
date		209,503			
TOTAL	\$	315,639	\$	2,231,010	

NOTES TO FINANCIAL STATEMENTS (Continued)

6. RETIREMENT PLAN COMMITMENTS (Continued)

a. <u>Teachers' Retirement System of the State of Illinois</u> (Continued)

Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

\$209,503 reported as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Amount	
2022	\$ (961,30	05)
2023	(788,87	70)
2024	(358,16	58)
2025	(8,30)8)
2026	(8,22	23)
TOTAL	\$ (2,124,87	74)

Actuarial Assumptions

The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50%

Salary increases Varies by amount of service credit

Investment rate of return 7.00%, net of pension plan investment expenses,

including inflation

In the June 30, 2020, actuarial valuation, mortality rates were based on the RP-2014 White Collar Table with adjustments as appropriate for TRS experience. The rates are based on a fully generational basis using projection table MP-2017. For the June 30, 2019, actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully generational basis using projection table MP-2014.

6. RETIREMENT PLAN COMMITMENTS (Continued)

a. <u>Teachers' Retirement System of the State of Illinois</u> (Continued)

Actuarial Assumptions (Continued)

The long-term (20-year) expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
U.S. large cap	16.50%	6.10%
U.S. equities small/mid cap	2.30%	7.20%
International equities developed	12.20%	7.00%
Emerging market equities	3.00%	9.40%
U.S. bonds core	7.00%	2.20%
U.S. bonds high yield	2.50%	4.10%
International debt developed	3.10%	1.50%
Emerging international debt	3.20%	4.50%
Real estate	16.00%	5.70%
Private debt	5.20%	6.30%
Hedge funds	10.00%	4.30%
Private equity	15.00%	10.50%
Infrastructure	4.00%	6.20%
TOTAL	100.00%	=

Discount Rate

At June 30, 2020, the discount rate used to measure the total pension liability was 7%, which was the same as the June 30, 2019, rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, district contributions and state contributions will be made at the current statutorily required rates.

NOTES TO FINANCIAL STATEMENTS (Continued)

6. RETIREMENT PLAN COMMITMENTS (Continued)

a. Teachers' Retirement System of the State of Illinois (Continued)

Discount Rate (Continued)

Based on those assumptions, TRS' fiduciary net position at June 30, 2020, was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier 1's liability is partially funded by Tier 2 members, as the Tier 2 member contribution is higher than the cost of Tier 2 benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6%) or 1 percentage point higher (8%) than the current rate.

				Current		
	19	% Decrease	Di	scount Rate	1	% Increase
		(6%)		(7%)		(8%)
Employer's proportionate share of the net pension liability	\$	2,951,588	\$	2,431,656	\$	2,003,602

TRS Fiduciary Net Position

Detailed information about the TRS' fiduciary net position as of June 30, 2020, is available in the separately issued TRS Comprehensive Annual Financial Report.

NOTES TO FINANCIAL STATEMENTS (Continued)

6. RETIREMENT PLAN COMMITMENTS (Continued)

b. <u>Illinois Municipal Retirement Fund</u>

Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, postretirement increases and death benefits to plan members and beneficiaries. The employer plan is affiliated with IMRF, an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information (RSI). That report may be obtained at www.imrf.org.

Plan Administration

All employees (other than those covered by TRS) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Plan Membership

At December 31, 2020, IMRF membership consisted of:

Inactive employees or their beneficiaries	
currently receiving benefits	319
Inactive employees entitled to but not yet	
receiving benefits	318
Active employees	331
TOTAL	968

NOTES TO FINANCIAL STATEMENTS (Continued)

6. RETIREMENT PLAN COMMITMENTS (Continued)

b. <u>Illinois Municipal Retirement Fund</u> (Continued)

Benefits Provided

All employees (other than those covered by TRS) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

IMRF also provides death and disability benefits. These benefit provisions are established by state statute.

Contributions

Participating members are required to contribute 4.50% of their annual salary to IMRF. The District is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution for the year ended June 30, 2021, was 7.56% of covered payroll.

Actuarial Assumptions

The District's net pension liability was measured as of December 31, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

NOTES TO FINANCIAL STATEMENTS (Continued)

6. RETIREMENT PLAN COMMITMENTS (Continued)

b. <u>Illinois Municipal Retirement Fund</u> (Continued)

Actuarial Assumptions (Continued)

Actuarial valuation date December 31, 2020

Actuarial cost method Entry-age normal

Assumptions

Price inflation 2.25%

Salary increases 2.85% to 13.75%

Investment rate of return 7.25%

Asset valuation method Market value

For nondisabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020. For active members, the Pub-2010, Amount Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

Single Discount Rate

A single discount rate of 7.25% was used to measure the total pension liability. The projection of cash flows used to determine this single discount rate assumed that the plan members' contributions will be made at the current contribution rate, and that district contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

7. OTHER POSTEMPLOYMENT BENEFITS

a. Retirees Health Plan

Plan Description

The District's other postemployment benefits (OPEB) plan is a single-employer defined benefit healthcare plan that is administered by the District. The District provides postemployment benefits for eligible participants enrolled in the District sponsored plan. Benefits are provided in the form of an implicit rate subsidy under which retirees that have not yet reached age 65 receive health insurance coverage by paying an active employee rate. Benefit provisions are established through contractual agreements and may only be amended through negotiations with the Board. The plan does not issue a separate, publicly available report. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The activity of the plan is reported in the District's General Fund.

Benefits Provided

The District provides continued health insurance coverage at the employee rate to all eligible retirees in accordance with ILCS, which creates an implicit subsidy of retiree health insurance.

Total OPEB Liability

The District's total OPEB liability of \$552,124 was measured as of June 30, 2021 and was determined by an actuarial valuation as of June 30, 2020.

Actuarial Assumptions and Other Inputs

The total OPEB liability at June 30, 2021, as determined by an actuarial valuation as of June 30, 2020, was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified.

Actuarial cost method	Entry-age normal
Actuarial value of assets	Market value
Salary increases	4.00%
Discount rate	2.18%
Healthcare cost trend rates	6.00% to 4.50%

The discount rate was based on the 20-year municipal bond yield at June 30, 2021.

Mortality rates were based on the RP-2014 Employee Mortality Table for Males and Females with 2-dimensional, fully generational improvements updating the MP-2017 Mortality Improvement Scale. These rates are improved generationally using MP-2016 Improvement rates.

TOTAL	\$ 18,219

NOTES TO FINANCIAL STATEMENTS (Continued)

7. OTHER POSTEMPLOYMENT BENEFITS (Continued)

b. Teacher Health Insurance Security Fund of the State of Illinois

The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit postemployment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the City of Chicago. The THIS Fund provides medical, prescription and behavioral health benefits, but it does not provide vision, dental or life insurance benefits to annuitants of TRS of the State. Annuitants not enrolled in Medicare may participate in the State-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage Plan.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the State to make a contribution to the THIS Fund.

The percentage of employer required contributions in the future will not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year.

- On-behalf contributions to the THIS Fund The State makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to the THIS Fund from active members which were 1.24% of pay during the year ended June 30, 2021. State contributions were \$293,999 and the District recognized revenue and expenditures of this amount during the year.
- Employer contributions to the THIS Fund The District also makes contributions to the THIS Fund. The employer THIS Fund contribution was 0.92% during the year ended June 30, 2021. For the year ended June 30, 2021, the District paid \$218,128 to the THIS Fund, which was 100% of the required contribution.

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: http://www.auditor.illinois.gov/Audit-reports/ABC-List.asp. The current reports are listed under "Central Management Services."

b. <u>Teacher Health Insurance Security Fund of the State of Illinois</u> (Continued)

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2019, rolled forward to June 30, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Inflation 2.50%

Salary increases Depends on service and ranges from 9.50% at one year

of service to 4% at 20 or more years of service. Salary increase includes a 3.25% wage inflation assumption

Investment rate of return 0%, net of OPEB plan investment expense, including

inflation

Healthcare cost trend rates Trend for fiscal year 2020 based on expected increases

used to develop average costs. For fiscal years on and after 2021, trend starts at 8.25% for non-Medicare cost and Medicare costs, and gradually decreases to an ultimate trend of 4.25%. There is no additional trend rate adjustment due to the repeal of the Excise Tax.

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table. All tables reflect future mortality improvements using Projection Scale MP-2017.

Single Discount Rate

Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

Since the THIS Fund is financed on a pay-as-you-go basis, the sponsor has selected a discount rate consistent with the 20-year general obligation bond index described above. The discount rates are 3.13% as of June 30, 2019 and 2.45% as of June 30, 2020.

OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2021, the District disclosed a liability for its proportionate share of the net OPEB liability that reflected a reduction for state OPEB support provided to the District. The collective net OPEB liability was measured as of June 30, 2020 and the total OPEB liability used to calculate the collective net OPEB liability was determined by an actuarial valuation as of that date. The District proportion of the collective net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of the District actuarially determined. At June 30, 2020, the District's proportion was 0.0093711%, which was a decrease of 0.000101% from its proportion measured as of June 30, 2019 (0.093812%). The State's support and total are for disclosure purposes only.

The amount recognized by the District as its proportionate share of the net OPEB liability, the related state support and the total portion of the net OPEB liability that was associated with the District were as follows:

Employer's proportionate share of the net OPEB liability	\$	25,054,571
State's proportionate share of the net OPEB liability associated		
with the employer		33,942,046
1 7		, , ,
TOTAL	\$	58,996,617
10112	Ψ.	00,550,017

For the year ended June 30, 2021, the employer recognized the following OPEB expense/expenditures and revenue pertaining to the District's employees:

	 overnmental Activities	General Fund	
State on-behalf contributions - revenue and expense/expenditure District OPEB (benefit) expense	\$ 302,814 714,506	\$	293,999 247,604
TOTAL OPEB EXPENSE/EXPENDITURE	\$ 1,017,320	\$	541,603

7. OTHER POSTEMPLOYMENT BENEFITS (Continued)

b. <u>Teacher Health Insurance Security Fund of the State of Illinois</u> (Continued)

OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

At June 30, 2021, the District disclosed deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Def		Deferred	
	Outflows of		Inflows of	
	Resources		Resources	
Differences between expected and actual experience	\$	-	\$	665,674
Changes of assumptions		8,484		4,132,720
Net difference between projected and actual earnings on OPEB plan investments		-		713
Changes in the proportion and differences between employer contributions and proportionate share of				
contributions		38,446		222,369
Employer contributions subsequent to the				
measurement date		218,128		
TOTAL	\$	265,058	\$	5,021,476

\$218,128 disclosed as deferred outflows of resources related to OPEB resulting from the District's contributions subsequent to the measurement date and before the end of the fiscal year will be included as a reduction of the collective net OPEB liability in the year ending June 30, 2021. Other amounts disclosed as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in the District's OPEB expense as follows:

Year Ended	
June 30,	
·	
2022	\$ (598,260)
2023	(598,260)
2024	(598,260)

2026	(598,260)
Thereafter	(1,983,246)
TOTAL	\$ (4,974,546)

8. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omission; injuries to employees; and natural disasters. The District participates in a public entity risk pool which operates common risk management and insurance programs. Risks covered include general liability, property damage and workers' compensation. The District is self-insured for medical and dental coverage.

No material decreases in insurance coverages have occurred nor have any insurance claims in excess of insurance coverages been paid or reported during the last three fiscal years.

The District is self-insuring its employee medical benefits for each employee or dependent covered and maintains coverage with an insurance carrier for excess amounts. This plan is administered by outside administrators who process the claims. As of June 30, 2021, a liability has been provided for all known claims plus an estimate for those claims incurred but not reported. All claims incurred and not reported are expected to be paid from currently available resources. The costs related to this plan for the year ended June 30, 2021, were accounted for in the Internal Service Fund.

An analysis of claims activity consisted of the following:

	2020 to 2021		2019 to 2020	
SELF-INSURANCE LIABILITY, JULY 1	\$	583,258	\$	809,976
Current year claims and changes in estimate Claims paid		8,843,862 (8,508,777)		7,597,197 (7,823,915)
SELF-INSURANCE LIABILITY, JUNE 30	\$	918,343	\$	583,258

9. COMMITMENTS AND CONTINGENCIES

a. Grantor Agencies

Federal and state grants-in-aid received by the District are subject to audit and adjustment by grantor agencies. If grant revenues are received for expenditures which are subsequently disallowed, the District may be required to repay the revenues. In the opinion of management, liabilities resulting from such disallowed expenditures, if any, will not be material.

b. Litigation

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the District's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the District.

Contributions as a percentage of covered payroll	9.45%		9.02%	7.74%	6.85%		6.96%		6.85%		7.56%

Notes to Required Supplemental Information

The information presented was determined as part of the actuarial valuations as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay, closed and the amortization period was 23 years until the remaining period reaches ten years (then ten-year rolling period); the asset valuation method was five-year smoothed market; and the significant actuarial assumptions were an investment rate of return at 7.25% annually, projected salary increases assumption of 3.35% to 14.25% compounded annually and price inflation of 2.50%.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

SCHEDULE OF EMPLOYER CONTRIBUTIONS TEACHERS' RETIREMENT SYSTEM OF THE STATE OF ILLINOIS

Contributions as a percentage of covered payroll	1.78%		1.72%	1.66%		0.87%		0.81%	0.88%		0.88%

Notes to Required Supplemental Information

Changes of assumptions: For the 2020-2016 measurement years, the assumed investment rate of return was 7.00%, including an inflation rate of 2.50% and a real return of 4.50%. Salary increases were assumed to vary by service credit and were consistent in 2019 and 2020. For the 2015 measurement year, the assumed investment rate of return was 7.50%, including an inflation rate of 3.00% and a real return of 4.50%. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ended June 30, 2014.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

Plan fiduciary net position as a percentage of the total pension liability	42.95%	41.50%	36.40%	39.30%	40.00%	39.60%	37.80%

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

SCHEDULE OF CHANGES IN THE EMPLOYER'S TOTAL OPEB LIABILITY AND RELATED RATIOS OTHER POSTEMPLOYMENT BENEFIT PLAN

Last Two Fiscal Years

MEASUREMENT DATE JUNE 30,	2020	2021
TOTAL OPEB LIABILITY		
Service cost	\$ 36,144	\$ 36,868
Interest	12,329	13,010
Changes of benefit terms	-	-
Differences between expected and actual experience	-	-
Changes of assumptions	3,147	17,900
Benefit payments	-	(9,507)
Other changes	 332	
Net change in total OPEB liability	51,952	58,271
Total OPEB liability - beginning	 441,901	493,853
TOTAL OPEB LIABILITY - ENDING	\$ 493,853	\$ 552,124
Covered payroll	\$ 7,010,000	\$ 7,010,000
Employer's total OPEB liability as a percentage of covered payroll	7.04%	7.88%

There were changes in assumptions related to the discount rate made in 2020 and 2021.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available. The District implemented GASB 75 in fiscal year ended June 30, 2020.

SCHEDULE OF THE DISTRICT'S PROPORTIONATE SHARE OF THE COLLECTIVE NET OPEB LIABILITY AND RELATED RATIOS TEACHERS' HEALTH INSURANCE SECURITY FUND

Last Four Fiscal Years

MEASUREMENT DATE JUNE 30,	2017	2018	2019	2020
District's proportion of the collective net OPEB liability	0.094254%	0.093645%	0.093812%	0.093711%
District's proportionate share of the collective net OPEB liability	\$ 24,458,465	\$ 24,671,518	\$ 25,964,703	\$ 25,054,571
State's proportionate share of the collective net OPEB liability associated with the District	32,120,042	33,128,610	35,159,443	33,942,046
TOTAL	\$ 56,578,507	\$ 57,800,128	\$ 61,124,146	\$ 58,996,617
Plan's fiduciary net position as a percentage of the total pension liability	(0.17%)	(0.07%)	0.25%	0.70%
District's covered payroll	\$ 21,679,362	\$ 22,200,271	\$ 23,058,737	\$ 23,705,761
Proportionate of the collective net OPEB liability associated with employer as a percentage of its covered payroll	260.98%	260.36%	265.08%	248.87%

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information should be presented or as many years as is available.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

June 30, 2021

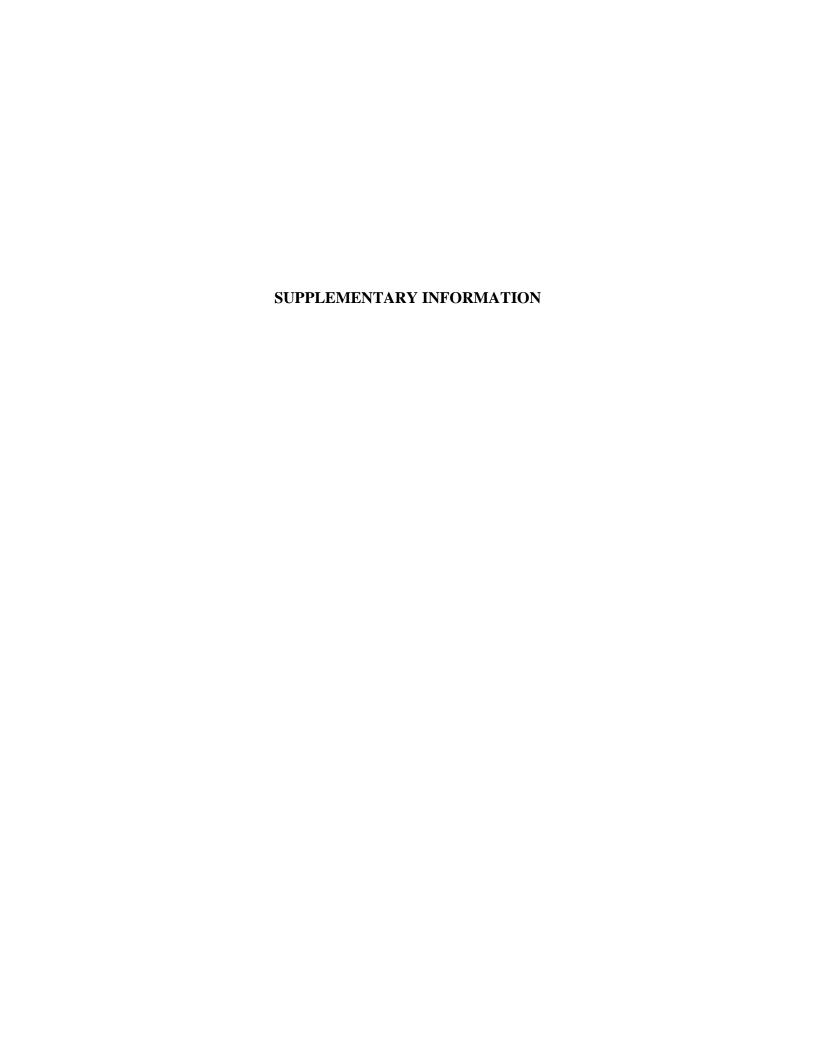

1. BUDGETS AND BUDGETARY ACCOUNTING

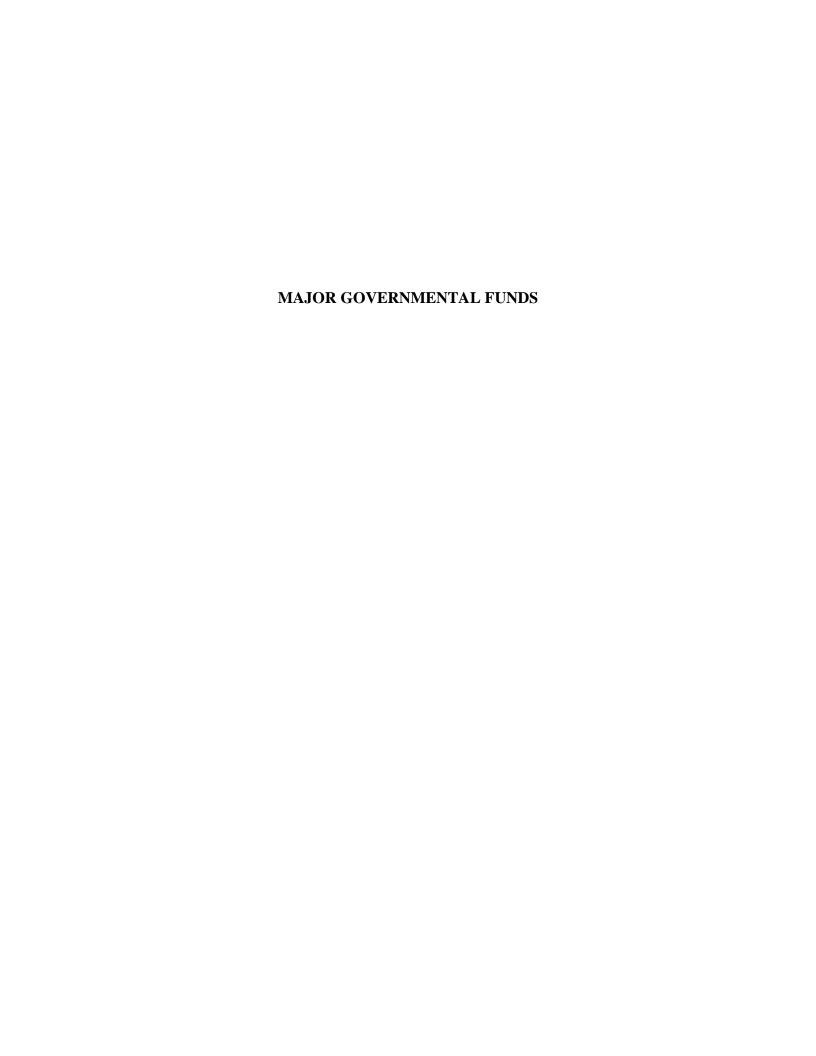

The District follows procedures mandated by Illinois State law and the District's board policy to establish the budgetary data reflected in its financial statements. The modified accrual basis budgeted amounts in this report are the result of full compliance with the following procedures:

For each fund, total fund expenditures may not legally exceed the budgeted amounts. The budget lapses at the end of each fiscal year.

The District follows these procedures in establishing the budgetary data reflected in the financial report:

- a. Annually the Superintendent submits to the Board a proposed operating budget for the fiscal year commencing on July 1. The operating budget includes proposed expenditures and the means of financing them.
- b. Public hearings are conducted at a public meeting to obtain taxpayer comments after the proposed budget has been made available to the public for a 30-day period.
- c. Prior to September 30, the budget is legally adopted through passage of resolution.
- d. Legal spending control for District monies is at the fund level, but management control is exercised at budgetary line item levels within each fund. The Board of Education may amend the budget after it is approved using the same procedures necessary to approve the original budget. The Board also authorizes transfers between the various budgetary line items in any fund, not exceeding, in the aggregate, 10% of the total amount budgeted for such fund. There were no amendments or authorized transfers to the original budget.

STATISTICAL SECTION

This part of Freeport School District #145's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the District's overall financial health.

<u>Contents</u>	Page(s)
Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	97-106
Revenue Capacity These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	107-111
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	112-116
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	117-118
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	119-121

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.
